

THE COFFEE WORKSHOP

Sono Fresco 1.2kg Fluid Bed Roaster

Specifications

- **Roaster Type: Fluid Bed**
- Gas Burner Specification: Available as Propane or Natural Gas
 - Number of burners: 1
 - Injector size: Propane 1.95mm, NG 3.7mm.
 - Test point pressure: Propane 2.52KPA, NG 1.0KPA
 - Nominal gas consumption: Propane 42MJ/H, NG 42MJ/H
- Gas Controller: Robertshaw 722DER-120Max. CSA No. 016942-0-000 (class 3302-0)
- Electronic Controller: Robertshaw RAM-1MC1-06. CSA No. 061942_0_000 (class 3335-81)
- Pressure Switch: RSS-495, AGA No 5562
- Gas Pressure Regulator: Bromatic Oara 980L & 986L, AGA No. 5862
- Batch capacity: 1.2kg green weight
- Roasting time: 13 -18mins, capacity per hour: 3 kgs. (roasted weight)
- Dimensions: D522mm x W332mm x H765mm
- Net weight: 50 kgs (includes shipping crate), 35kgs net of crate.
- Crate cubic measurement: 0.2 cubic metres.
- Voltage: 230v/ 50hz
- Power requirements: 10 amps.
- Motors x 1
 - Main motor: 350w
- Body: High temp stainless steel

Features:

- Fully automated including roast cycle and cooling
- Back to back roasting
- Built in timer
- Electronic temperature and timer display
- Efficient cooling 2-3 minutes
- Auto electric ignition and safety cut-out
- Certifications: UL_E236462, UL_MH27543. Tested and complies with AS4563-2004
- ADR (Advanced Definition Roasting)
 - Create and store unlimited custom roast profiles using simple PC and Mac based software.
